PROMOTING CHILDREN, YOUTH, AND WOMEN, EDUCATION AND :PSYCHOLOGICAL WELLBEING IN NABLUS –OLD CITY

As was planned, by the end of April, 2012 human supporters association will finish the last round of the school support program, in this case we decided to Organize Trip for the children and their families. 400 children from the old city of Nablus and its surrounding schools have been part of our program “school support” children aged between 7-9 years old, from boys and girls were our target groups, during the classes that provided by 5 teachers we promoted the children capacity in Arabic, mathematics and English. Since October 2010, we started the program, 4 rounds for six months were conducted, and high results were gained by the program. The school support program activities actively provided with many educational means that will help the children to cope at school and get better educational levels with high personal benefits.

As usual, in the illiteracy program activities the program, teachers provided Arabic language, mathematics and English language classes to targeted groups, providing Arabic language and mathematics classes for women and those who dropped out

جمعية أنصار الإنسان
Human Supporters Association

40 beneficiaries, staff, volunteers and others were part of the classes, during the sessions many exercises were delivered for the groups. As well as a special classes for the children were provided by here, this activities included playing with balloons .drawing on the face and many other things

:PALEET CLASSES

Volunteered at human supporters to provide Ballet classes for group of girls aged ... between 10 – 13 years old, the session were provide in the association's whole. Were the girls learned to perform ballet dance with the music, mastering all the movements that help them to make choreography, the girls expressed how happy there are with .this dance because it's new for them, as they would like to have it more and more

:SPORT FOR WOMEN AND GIRLS

Sport classes for women and girls were continued in April. Women classes were conducted at the associations headquarter, while girls' classes were conducted at Al-Fatimia school. Both women and girls realize how important these sport classes are in enhancing their health.

ENGLISH CLASSES FOR WOMEN

Human rights theater project coordinator volunteered to provide an English course to women attending illiteracy classes. This course included Basic English activities and exercises. Attendees considered this course an important one since they are going to practice what they have learnt in it with their children, helping them building their English skills as well.
