School support:

During December, our school support activities were following the main methodologies and goals of the project itself, it was obvious the improvement of the children's performance in the classrooms, due to the participatory approach that made a positive changes.

As the teachers held 3 meetings with the mothers in order to explain their children achievements and the teachers' plans and their methods in tutoring their children

Labs :

With the beginning of December we started the Art labs activities, Sport, Art, theater, and computer In each lab there are 15 children aged between 9-14 years old, the aim of the labs is to enhance the children's psychological wellbeing and to increase their abilities in playing and working together as team and to express their feelings so they can gain more awareness about their lives.
