(Promoting children, youth, women education and psychological wellbeing in Nablus – Old City)

Adding to our regular activities in the educational support, this month the teachers gave a special training on creating an educational facilitation, which would help the mothers to find a good strategy in tutoring their children, also the children had school exams, and the teachers responded to that actively, they tutored them from their own curriculums using the active participation methodology.

For the psychological wellbeing labs, in 21st of March, the kids celebrated the mother's celebration day within the art lab, they sang dance, and made a special card that prizing their mothers with, they have also celebrated the father day, which is created by their own imagination to give him the value as well as the mothers. As the sport team made a friendly match with the team of (Jabal El Nar), and planning to play another match in the coming days.

ACTIVITIES:

Due to our cooperation with the universities, we provide a special training for the students in the last semester at the university, this month we have involved 2 students in our activities, one of them are giving English class for the seventh and eighth grade, and the other one has been involved as computer lab facilitator for children aged between 8 – 12 years old, this way we insure a good service for the children and also involve the students in the social field, which integrate them with the volunteering work. One of our dedicated volunteer, Hiba Hammad, cooperated with the children of the seventh and the eighth grade that have difficulties in mathematics, she committed to teach them mathematics of their own curriculums, those children are coming twice a week to our center
