With great pleasure, and in line with its schedule, Human Supporters Association announced the completion of all activities for its illiteracy program this month. The Teachers have taken great care to prepare an assessment for all the target groups, making note of progress in subjects such as Arabic and mathematics. There have been many success stories amongst the students. The high marks they have achieved in the final exams are a reflection of the hard work they have put in during the program.

### **HUMAN RIGHTS THEATER PROJECT:**

Those groups participating in the Human Rights Theater Project wrote their plays, they discussed their choice of scenery and they started casting for the roles to begin rehearsing for their final show. In addition other sessions were provided, such as exercises about their own feelings, in which we provided them with a value to release much of their negative energy.

## **Languages classes**

Human Supporters Association is hosting language classes, which last for around one month. An Italian volunteer is currently providing classes for the staff of the association. He is trying to promote basic reading, writing and conversation skills. Arabic classes are also being provided by local volunteers for a number of international volunteers. This exchange provides all those who take part with invaluable cultural, educational and social encounters, which they will remember for years to come.

## **ENGLISH CLASSES FOR WOMEN**

As is the case every month, an English class for women is provided by Human Supporters Association staff. These classes target women who are attending illiteracy classes. The course focuses upon basic English activities and exercises. Attendees consider this course as important and practical, since they are able to practice what they have learnt with their children, helping them to reinforce their studies.
