# Winter Camp

## "Colorful Dreams"

The Winter Camp at HSA for the year 2016 "Colorful Dreams" 40 Children of the age 7-12 years join this camp which includes corner "Handcraft, Games, Computer and Dancing" the result were amazing .

The kids spent qualified time in their holiday they met new friends visited the municipality library , learnd new skills and they were happy a big thank for everyone who participated and made an effort to made this work.

# school SUPPORT " 2016 "

The programs aims to improve the academic and psychological level for children . It targets more than 80 students who are 7-9 years old these target children are from the old city and its surrounded area in Nablus . These children have difficulties in learning as a result of thier bad financial situation and or because of thier overcrowded classes in school . so these reasons would not allow them to take thier right of having good education and would affect negative on their education process . in order to handle and solve this problem , the program is designed to use extracurricular ways and techniques in order to improve their asademic levels .

# “ workshop ”

Human Supporter Association held workshop with cooperation of psychologist to 17 students. The title of this workshop is how to manage the time and how to prepare for school because students will begin a new semester next Sunday During this workshop the expert asked the student to draw their clock and put their program with taking in consideration their appetities so they can manage thier time between studying and doing their own needs at the same time. After that,each student presented thier schedule to didcuss it and have positive feedback .

# “ European Voluntary service ”

HSA has sent two of our volunteers to France to do their European voluntary service of one year in Nantes City in coordination with our partner CEMEA Association .

Ameed and Dyala have traveled to start their EVS in 03/02/2015 and have returned to Nablus 03/02/2016. They have done a lot of activities with their hosting organization such as ,planning Palestinian evenings and sharing our traditional Palestinian food ,have organized and created a group of Dabkah dancing ( The palestinian traditional dance) .

They gave Arabic lessons to people who were interested , Therefore , they have shared our palestinian culture and learned from others as well .

UN STADE POUR GAZA - NANTES 2015

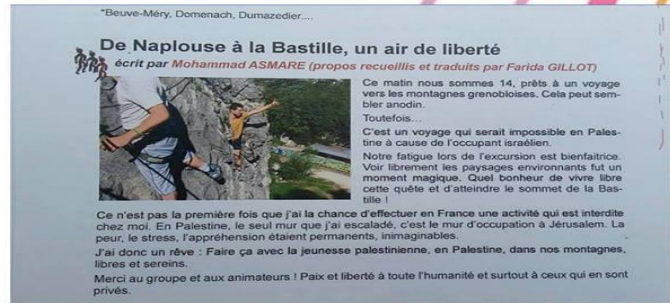

They also acquired some competences from participation in , different activities and trainings during this year, for example :

- \* The BAFA training which is a training that authorizes you to become a facilitator for children in the centers in France. During doing their BAFA training , they have practiced being a facilitator for groups of children in a social center which was a great experience for them because it taught them new methods on dealing with children .

- \* Participating in weekends that were done by the hosting association which held various subjects , such as media , theater, expression .

- \* Participating in planning and organizing a summer camp . This was an amazing experience because it was something new to them as we in Palestine don't have the ability to plan a lot of camps due to the political and financial situation .

Finally , this experience was very rich for them because it opened their eyes to new methods of living . it made them , more independent , responsible , decision makers and leaders . Furthermore , they have improved their level in the French language , met some good people and shared with them a lot of our Palestinian traditions and daily life .

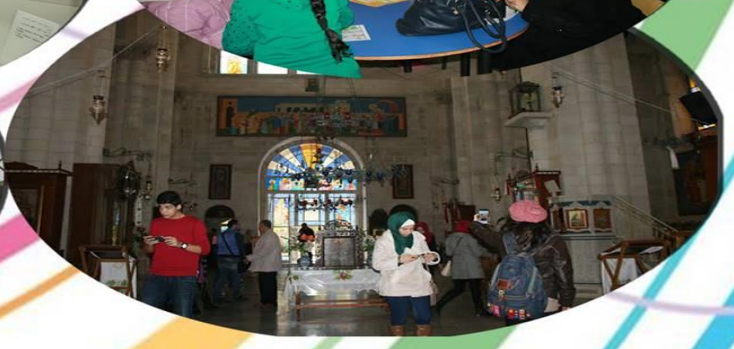

# “Educational tour”

Human Supporter Association Organized an educational tour to its volunteers and trainers who study sociology and community service .

This tour was in Balata camp and one of its social centers .The name of this center is Yafa cultural center. They were welcome by the manager then he told them about the political and social situations in the camp .

After that he described the physical effects that the occupation causes . It was the main reason of establishing the center Then they visited some place which surrounded Balata refugee camp like Tell Balata which is a Canaanite city and it's called Shechem . This trip was ended by visiting Jacob' well . The well is inside ah old Church wich was dug bu Jacob .

**\* Dance BOYS \***

**HIP HOP  
&  
BREAK DANCE**

**TRADITIONAL DANCE  
DABKAH GROUP**

## Demonstration of support for Ahmed Manasrah

A group of HSA participated in the demonstration on thursday 21 january 2016 in nablus ,this demonstration was held to show the support for Ahmad manasrah who is in israeli prison, Ahmad is 14 years old from Hebron .

Ahmad was arrested in jerusalem in 12 October 2015 and he was injured and bled for while in the street and some settlers were beating him and curse him while he is bleeding .

After the solidarity event , a small party was held at Hamde Manko center for his birthday where one of the Human Supporters Association volunteers recited spical poem fom Ahmad Manasrah in front of the invitees .

# Human Supporters Association

HSA would like to thank all our partners and all the other Organizations who cooperated with us for all different kind of cooperation.
