They got the opportunity to rehearse alongside professional musicians from Nablus. The project ended with an amazing performance at the Gate Cafe combining songs about freedom and happiness and a Dabkeh performance. The event was a big success, as the cafe was full of people including families, parents, volunteers and citizens of Nablus. The event was broadcasted by journalists from Dooz and Nbc as well. Drinks and snacks were provided by the team of HSA with the support of the the Gate Cafe. Overall, everyone had a good time and it was a good way to end the school semester.

Training

Training of Trainers

H.S.A implemented training for volunteers who will be responsible in " winter camp 2020", that intended to improve the participant's ways of leading and dealing with children.

It gave them fresh perspectives to perfectly prepare them for the organization of the winter camp, will be implement in January .

The course also covered responsibilities, duties and rights of a leader in the winter camp as well as boundaries to be respected when working with youth.

The participants learnt more about their personalities by looking at their own boundaries and how to cope with their fears. They also explored ways of how to empower themselves when facing issues or difficulties both in their daily lives and in the context of working with children.

New activity with french girls

A new activity was held in H.S.A by two French girls from "CEMEA" French organization. it's about talk with people living in Palestine, talk about their daily life in the past "under occupation" and in this days, their dreams and future and share with them some favorite pictures, music, song, talents, sounds.

The main idea for it, to show all this thing to the people who live in France, to know about Palestinian people how they live and think, what they hope for their future.

French day in H.S.A

A french Christmas day was organised by the french volunteers Leila and Solene. With the help of volunteers and the team from HSA they decorated the center with French flags, and home-made Christmas decorations. They prepared traditional amuse-bouches " that french people eat before " christmas dinner. Many volunteers came and everyone enjoyed discovering traditional food while listening to some french music .
