EU Aid Volunteers

We Care, We Act

My name is Leila and I am from France, I am Project coordinator specialised in working with young refugees and asylum seekers. I started working with Human Supporters Association for more than on month through the EU Aid Volunteers initiative which is financed by the EU. So far my experience within this grassroots organisation has been an absolute pleasure. It is a small but dynamic, friendly and professional team who has made me feel comfortable since I arrived. Everyone is committed and passionate about their work with the children and it is really inspiring to be involved in such working environment. I have been recruited to work on "capacity building and organisational development" initiatives .

So far it has been a really fulfilling job as I have been both working directly with the children (during the summer camp) as well as in the office.

On a professional level it is really rewarding as I am able to work on a variety, of tasks including organising logistics, training volunteers writing reports fundraising, finding partners ,teaching English , teaching music. I will also be able to develop and implement my own initiative as well.

On a personal level, I have improved my Arabic thanks to the support of everyone in the association and the people in Nablus which is really satisfying I absolutely love living in this charming ancient city .

I have had the pleasure to discover it as well as its surroundings .

The people, the landscape, the culture, the history, the food and the warm welcome make you feel really attached to this traditional city and make you don't want to leave this country .
