Sport For Freedom

HSA welcomed Easton Cowboys and Cowgirls Sports and Social Club - England in Nablus , Palestine this month. During a few days, they played with 5 different teams of the region . It was an opportunity for the teenagers to train with the players and to share a moment with the people who are from the country that invented football For the English players it was a great moment to discover more about our culture . and the recent situation. It was a good time for all of them and for the public who have had the chance to watch some of the games .

The volunteer Leila has started a new Music Program called Voices of Freedom for children aged 8-14 years old. The music project is held every Tuesday at HSA from 2 to 4 PM and will continue until the end of December .

It is an amazing opportunity for the children to get together to play music, learn songs in English, French and Arabic and create new songs with the help of professional musicians.

In December there will be a performance where children and the musicians will show what they learnt and created around the theme of freedom and happiness .

We believe that music is an excellent educational tool that empowers young people, foster their creativity and relieve some of the psychological effects of daily life's challenges .

At the beginning of October, the teachers made exams for students to know their educational levels at the school support. They then started teaching them in a non academic way, through which students can easily understand letters, numbers.

Teachers have used paintings drawings, preparing shapes and letters. The teachers met with the student's mothers to explain about the school support project and discussed some good ways to help the mothers how to behave with their children through the help of videos .

Project “ Enhancing the participation • of marginalized women in community's activities

Human Supporters Association organized the last session of the training for the women call “Enhancing the participation of marginalized women in the communities’ activities. This training was one of the activities that HAS provided through SudHAV2 program.” We had several meetings and training for mothers and girls. The main purpose of the training was to give participants tools to provide a positive way of educating their children in their daily lives. One of the activities was to explain to the parents the importance of non –violence and punishment during the child uprising. This last session was organized in the spirit of a farewell party. We ate breakfast and we had really great time all together. Leila, the French volunteer played guitar and sang a song for the women and the other two international volunteers also contributed by preparing and helping during the event. We are glad to said, that we created a strong group of women, who are now supporting each other and will continue to do so in the future #EUAID #Volunteer services .

Arabic Language

" Olivier ,Leila, Solene, Anna Volunteers "

HSA continues to provide Arabic language classes for European volunteers by " Arabic teacher Manar ", where lessons are held two days a week for different levels .

After three months, the teacher observed good improvement. The EVS volunteer, Olivier is able to read and write in Arabic, EU Aid volunteer Leila started practicing speaking in Arabic with people everywhere and the EU AID Volunteer Anna learned a lot of vocabulary and started to create some sentences .

The aims of the program are to improve the educational level of students, creating strong friendships between them and improve their self-confidence.

Workshop For Children **CIRCUS**

HSA offered new workshop "Circus" for children between 10-16 years every Thursday at 3:30 Pm, delivered by the trainer " mohamad jinawi ".

This workshop is about teaching children how to do some games in a circus way. At the beginning they made many activities to know each others, and then they started to learn the basics for circus.

The children enjoyed, and learned new acrobatic skills

Mohamad Jinawi performed

his Circus skills (juggling and face painting).

In Rita Café and outside in the streets of the Old City in front

20 children and the inhabitants of the Old City bringing happiness to everyone .

Language

FRENCH

Bonjour

HSA is continuing French lessons for students by "solene" and olivier" every Tuesday and Thursday at 2:30 Pm, for different levels .

The first level is for the students to learn vocabulary and and create sentences. The second level is for students who didn't know French before. The teacher teaches them the basics .

English Language

Leila, the EU AID volunteer continues to provide English lessons twice a week . The classes are interactive and involves all kind of exercises such as role play, theatre, debates, reading books, informal conversations to improve students ability to speak and interact in the daily lives. The classes are delivered around specific themes and also include formal exercises an order for the students to improve their grammar , conjugation, and listening skills. The English lessons will also involves a tour in the Old City during which the students will have to become tour guides and share their culture and knowledge in English .
